PREFACE

This report, Utah's Vital Statistics: Marriages and Divorces, 2008, is published by the Office of Vital Records and Statistics, Utah Department of Health. Its purpose is to provide a consistent and convenient data resource for planners, students, researchers, public officials, private business and the general public.

Summary tables in this report contain trends and historical data for Utah and some historical data for the United States. Final data for the U.S. are not available after 1990 and in 1996 detailed data on marriages and divorces were not collected from the states participating in the Vital Statistics Cooperative Program. The last publication for summary data is the "Annual Summary of Births, Marriages, Divorces, and Deaths: United States, 1994" in the Monthly Vital Statistics Report series. United States data after 1994 are the latest month available in the data year published in the "Births, Marriages, Divorces, Deaths: Provisional Data for (month, year)" in the National Vital Statistics Report series.

The data in this report are tabulated for the state, local health districts, counties and various other demographic categories.

Insufficient responses to specific items on marriage and dissolution of marriage records can make corresponding statistical data unreliable. When this occurs the data may not be published although the data from prior years may be published. The technical notes contain information on the sources, quality and limitations of data.

Rates for marriages and divorces are per 1,000 population.

Population projections/estimates are revised as historical data becomes available and the rates may not agree with previous reports and vital records data may be updated each year and may not agree with prior reports in this series.

Utah Population Estimates Committee in 1996 changed its convention on rounded estimates so that it now publishes unrounded estimates. Accordingly, the revised estimates for 1990 and thereafter are not rounded.

Source for population data for years 1940-2008: Utah Population Estimates Committee (UPEC) and the Governor's Office of Planning and Budget (GOPB); Table: Total population by county: 1940-2008; website: http://www.governor.utah.gov/dea/UPEC/All UPECData081120.xls. (UPEC data is July 1 of the calendar year.)

The annual totals of Utah marriages for 1940, 1950, 1965, and 1978-1981 were the number reported; other years represent the number of transcripts received. The annual totals of divorces for 1940, 1950, 1960, 1965, 1970-1972, 1974-1976, and 1978-1981 were the number reported.

Data for 2002-2008 is the first Utah data published in the American Community Survey which replaces the long form in future censuses and is a critical element in the Census Bureau's reengineered 2010 plan. Population by maritial status by gender for 15 years old and above is used.
Rates are per 1,000 population.

Population and vital records data may be updated in summary tables each year and may not agree with prior reports in this series.

2008 Technical Appendix:

Marriages and Divorces

TECHNICAL NOTES

In 1957, the National Center for Health Statistics (NCHS), United States Department of Health and Human Services defined registration areas for the collection of marriage and divorce statistics. These areas were referred to as the Marriage Registration Area (MRA) and the Divorce Registration Area (DRA). Membership was voluntary for all states and the main requirement was central maintenance of marriage and divorce records. The MRA and DRA provided uniformity of data collection to provide detailed data for marriage and divorce studies at the national level.

The State of Utah participated in both the MRA and DRA programs. In 1996 NCHS stopped the collection of detailed data from marriage and divorce records, but continues to collect counts of marriages performed and divorces granted from all vital registration areas of the United States. The Office of Vital Records and Statistics, Utah Department of Health, continues to collect the detailed data and to publish Utah's Vital Statistics: Marriages and Divorces series. The following information will help users understand how marriage and divorce data are collected in the State of Utah.

Title 26, Chapter 2, Section 24 of the Utah Code Annotated, 1953 requires marriages occurring in the state to be registered with the state registrar. Divorce or annulment reporting is required under Title 26, Chapter 2, Section 25 of the Utah Code Annotated, 1953. The divorce statute specifies that the decree of divorce become absolute (final) at the expiration of three months from the date the decree is entered, unless an appeal of the court, for good cause, orders a different date, but not more than six months thereafter. In most instances, the divorce certificate is completed at the time the decree is entered and the date the decree becomes final is 90 days later. The record is then transmitted to this office. For some decrees, during the intervening 90 days, an appeal is filed and the final date is delayed or the decree may be set aside and never becomes final. Occasionally this office is notified of these changes. However, it is difficult, particularly at the end of the year, to reflect all of these changes so that there are complete statistical tabulations.

Data for the Reference Tables of this report are tabulated directly from records. The form used for reporting marriages was revised in 1996 and is shown in Figure A. The Certificate of Divorce, Annulment or Dissolution of Marriage, Figure B, was revised in 1995 and is being used in Utah's counties for submitting final divorce and annulment records to the Office of Vital Records and Statistics.
