

Notice of commencement of paternity proceedings

General Information

This form, along with a notice of commencement of paternity proceedings from the court will be used to register a man on the Utah Putative Father Registry. Before a child can be adopted the registry must be checked to be sure there is not a man who may be the child's father who would like the opportunity to raise the child. The registry does not establish paternity or add a father's name to the birth certificate. The timely filing of this form entitles you to notification of a proceeding for adoption of the child you've identified on the form.

Services are available through DHHS Office of Vital Records and the Office of Recovery Services to help establish paternity of a child who is not placed for adoption. The information you provide on this form may be shared with the Office of Recovery Services and used to establish paternity. You are advised to also file in other states if conception or birth of the child may have occurred there. If needed, we can provide you with contact information for other state vital records offices. Utah Judicial Code 78B-15-404.
